

Clean version of replacement Claims

The following is a clean copy of Claims 1, 3, 4, and 8, which should replace the originally filed Claims 1, 3, 4, and 8 in this application. Please enter accordingly:

Claim 1 A method of dechlorinating fluid, comprising the steps of:
connecting a by-pass integrated dechlorination device to a fluid flow source;
flowing fluid through said dechlorination device along a flow path;
diverting a portion of said fluid through a bypass in the dechlorination device;
exposing said proportion of said fluid to a dechlorination agent in the bypass; and
merging said proportion of said fluid back into said fluid flow path.

Claim 3 The method of Claim 1, wherein said dechlorination agent is contained in a removable agent mixing chamber.

Claim 4 The method of Claim 3, wherein said removable agent mixing chamber is removable from said dechlorination device without removing said dechlorination device from said fluid flow path.

Claim 8 The device of Claim 7, wherein said agent mixing chamber is selectively removable from said dechlorination device without removing said dechlorination device from said fluid path.
